

## Jeff Jordan for U.S. Congress Announces Endorsement from “Chasing Freedom - Virginia”

Today, the campaign announced that Chasing Freedom – Virginia (CFV), has formally endorsed Jeff Jordan.

CFV is operated exclusively for promoting the social welfare and common good of all citizens of Virginia in order to reinvigorate civic responsibility. Their mission is to preserve and promote individual rights to life, liberty, and the pursuit of happiness as envisioned by our nation’s founders in the Constitution and the Bill of Rights. Their goals are: 1) Serve as a unified voice in Virginia for grassroots activists and organizations; 2) Mobilize the people of Virginia in the defense of conservative values; 3) Be a trusted source of information on civics and Virginia politics; and 4) Vet, approve, endorse and support conservative candidates across Virginia.

“It’s an honor to be recognized by Chasing Freedom - Virginia,” **said Jeff Jordan.** “Their efforts to bring forth a fair, equitable, and non-partisan forum for evaluating candidates against the backdrop of the U.S. Constitution and the Bill of Rights is exactly what the political environment needs in order to stabilize itself. The only regret is that this isn’t being done in our schools as part of a civics-based curriculum. Perhaps we can change that in Congress and replace critical race theory as well.”

CFV is grounded in conservative principles and is designed to shape the political conversation within the state. Their endorsement brings significant credibility to the campaign and provides Jeff with a coalition of support as he seeks to serve Virginia’s 8<sup>th</sup> Congressional District in U.S. Congress.
